The Association of Mathematics Teachers of India

54th Annual Conference

27 28 29 December 2019

The conference provides a good opportunity for the delegates to present papers, exhibit math models, participate in group discussion and to interact with mathematics teachers of different regions at all levels.

Venue: Vivekananda Kendra
Vivekanandapuram, Kanyakumari 629 702 Tamilnadu

The **AMTI** is pleased to announce the details regarding the eagerly awaited **54th Annual Conference.**

Dates: **27, 28 and 29 December 2019.**

Venue: VIVEKANANDRA KENDRA, **Kanyakumari (Tamilnadu)**

Vivekananda Kendra came to existence in 1972 as a living memorial to Swami Vivekananda, with man-making and nation-building as its twin objectives. The Kendra has more than 850 branches and activity centres, spread over India to work for all strata of the society, to rebuild the nation. Apart from its service activities like Yoga, Swadhyay Varga (Study circle), Samskar Varga, Rural Development of Natural Resources etc., it runs schools as part of formal education in remote parts of Arunachal Pradesh, Assam, Nagaland, Maharashtra, Tamilnadu, Orissa, Andaman-Nikobar etc. Apart from this, where school infrastructure is quite difficult and not possible, it runs Ananadalaya, specially for school drop-outs, children of working people in tea-garden, industries and coastal areas.

How to participate :

To participate in the conference, you need to register. Registration is open to members as well as non-members. Registration entitles you participation in all activities of the conference. Please fill the form enclosed for the purpose. After you submit the enclosed form duly filled, along with the fees mentioned therein, a confirmation will be sent to you. AMTI reserves the right to reject the 'registration application' of a non-member.

Paper Presentation :

As a registered participant, you may like to submit a paper for presentation. A conference paper is often both a written document and an oral presentation. The paper should be precise and relevant to the topic. A 4 to 5 page double spaced paper is often a good fit for a 10 minute presentation. Time limit will be prescribed by the chair person and has to be strictly adhered. Power point presentation could help to reduce time. Keep the text as brief as possible; not more than 10 lines of text (or points) per slide. All letters on the slide should be big enough to make it readable even at the back of the auditorium.

Posters :

A poster presentation is the presentation of information in the form of a paper poster that participants may view. A poster session will have many such posters getting presented. Important information should be readable from about 2 meters away. Title must be short and catchy. Text should be clear and to the point. Use of bullets, numbering and headlines make it easy to read. Employ effective use of graphics, colour and fonts.

Exhibits :

Exhibits are hands-on-experiences to explore, explain and enhance math concepts. Low cost and self contained models which can be manipulated are preferred. The exhibits must be dynamic, simple to understand and should be related to concepts taught to children.

How to get approval :
